I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: I believe that I should have the choice
to choose my pharmacy which compounds my
medication. I have used estrogens and progestins for ^{estrogen replacement therapy}
for 14 years manufactured by large pharmaceutical
companies. During this time I have had many side
effects. If I chose to try natural hormones
compounded by pharmacies who care about the patient →

I believe that it is my right! Large companies have not done this because it has not been profitable for them.

Please do not restrict the ability of small compounding pharmacies to ship across state lines.
